CGPA: 7.22

Saraswati Vidhyalay - Naroda, Ahmedabad 382330

May 2022

*10<sup>th</sup> Standard* SSC

PR: 68.54%

## PROJECTS

---

AnimeClothy | E-commerce Website

Jul 2025

Engineered a modern, fully responsive e-commerce **front-end with React.js**, demonstrating proficiency in component-based architecture and modern Javascript practices. The application utilizes **React Hooks** for state management and **react-router-dom** to facilitate seamless navigation between pages. Key interactive features, including hover and click events, are implemented to enhance user experience. This project is a foundational piece that is currently being expanded to a full-stack application.

MongoDB | Express.js | React.js | Node.js

U Task | To Do List App

March 2025

Developed interactive to-do list web application using **React.js**, incorporating modern **React Hooks for efficient state management**. The application offers comprehensive **CRUD** (Create, Read, Update, Delete) functionality for tasks, including adding, removing, and editing to-do items. Crucially, it leverages **Local Storage** to ensure data persistence across browser sessions, allowing users to seamlessly resume their previous tasks upon revisiting the website.

React.js | Tailwind CSS

U Weather | Weather App

March 2025

Developed a foundational web application to showcase my skills in **React.js and Tailwind CSS**. The app fetches real-time weather data, including temperature, humidity, and wind speed, from the **RapidAPI platform**. This project demonstrates my ability to integrate third-party APIs and build clean, user-friendly front-end interfaces.

React.js | Tailwind CSS

## SKILLS

---

React.js, Node.js, JavaScript, Tailwind CSS, Bootstrap

## LANGUAGES

---

English (Basic), Gujarati (fluent), Hindi (fluent)
